

11,200 more houses

Chichester is 'Drowning in Development'

Government's Housing Plans over 10 years will:

- Destroy our bio-diversity, environment, agriculture and tourism
- Increase flooding and congest our roads
- Further damage the air quality

While investment lags way, way behind in:

- Local infrastructure and roads
- Water and sewerage
- Schools and health

ANGRY?

Say no to the government's housing plans
